

# Pedagogy at MIS

## Essential Components of the MIS Magic

Motivation, Exposure, Activity, and Feedback are the essential components of the pedagogical approach at MIS. Students can explain why, what, and how they are learning, and understand how they can show their best work. Faculty members infuse these four components in each lesson, every day, to ensure that *no one waits to learn*.

# MIS

### 01 WHY

Why are we learning this?

Components for Motivation

- 1) Engaging
- 2) Tempting
- 3) Relevant
- 4) Authentic

### 02 WHAT

What foundational content are we teaching?

Include Exposure to

- 1) Higher level content
- 2) Connections to other disciplines

### 03 HOW

What are we doing?

Activities should involve

- 1) Problem Solving
- 2) Critical Thinking
- 3) Hands-On Learning Tasks
- 4) Individual, Small Group, Large Group Tasks

### 04 HOW BEST

How do I know I'm doing well?

Provide

- 1) Rubrics and models
- 2) Meaningful feedback
- 3) Differentiated assessments
